SCHOOL VISITS BY BOARD MEMBERS

Policy

It is the policy of Thetford Academy to encourage Board of Trustees members to become familiar with the school, its programs and the needs of its staff and students.

Implementation

Individual Board members may visit the school periodically to expand their knowledge of school programs and staff and student needs.

A board member who wishes to visit the school must contact the Head of School. Any concerns raised as a result of such a visit shall be directed to the Head of School.

This does not preclude visits by board members for other purposes, such as committee meetings and related business, attending student events, performances and meetings with administration.
